

BAU 2007 – Plan of the Fair Grounds

Halls C1 – C4

- Aluminum profiles and systems
- Facade systems
- Lifts and escalators
- Building automation
- Machinery for aluminum/steel working
- Visions of Glass • Glass • Glass building materials • Foils • Glass design • Glass facades • Specialshow Climate Design
- "BAU IT" • Software and computers in construction
- Wood and plastics • Windows
- Doors, gates and door frames
- Stairways • Parquet flooring
- Laminate • Wood construction
- Fittings • Locks
- Building security

Halls B0 – B6

- "Renovations and modernisation"
- Seminars • Product innovations
- Obstacle-free building • Institutions
- Databases • Publishing companies
- Aluminum profiles and systems
- Facade systems
- Safety and fire-protection technology
- Doors, gates and door frames • Windows
- Steel – doors, gates, windows
- Parking systems
- Gate and door drive technology
- Steel construction systems
- Zinc and copper surface systems
- Stainless steel
- Ventilation technology • Air-conditioning technology
- Domestic engineering
- "Solar Horizons"
- Solar technology, photovoltaics, solar thermal

- Wood and plastics • Windows
- Doors, gates and door frames
- Stairways • Parquet flooring
- Laminate • Wood construction
- Fittings • Locks
- Building security

- Elastic and textile floor coverings
- Parquet flooring • Laminate • Gym floors
- Strips and floor profiles

Halls A1 – A6

- Mineral-ore-based products • Stoneware
- Sand-lime bricks
- Concrete/cellular-expanded concrete
- Pumice and fibrous building materials
- Dry interior finishing
- Prefabricated construction • Plastering
- Floor topping
- Insulating materials

- Bricks • Roofing tiles • Chimney building materials

- Natural stone • Artifice stone
- "URBAN DESIGN" • Garden and landscape architecture • Urban furniture

- Construction chemistry • Plasters/ varnishes/paints
- Glues • Thermal, low temperature, fire and noise insulation • Insulation materials • Building tools • Sealing
- Accessories for nature stone/tiles/ceramics floors

- Tiles/glass tiles • Ceramics
- Natural stone • Pool ceramics
- Bonding agents • Sanitary products
- Accessories

- „Special show Material Skills 2“
- „Forum MacroArchitecture“
- Interior materials and products
- Obstacle-free building

New! The complete northern area of the New Munich Trade Fair Centre has been renovated and made more convenient for visitors over the past months: The entry hall has been enlarged, 2,500 new car and bus parking spaces created, and a taxi and bus entrance built for the north main entrance. The expansion of other ExpressWay routes is also new. As a result, visitors can reach the north-south and west-east halls quickly and conveniently.
